## DYNAMICS OF RESIDENTIAL WATER DEMAND AND SUPPLY IN INDIA

2010. Hardcover. Condition: New. 360 Water is an indispensable natural capital to enjoy better health. No other natural resource other than water has had such an influence on humans. When the supply of water falls short, water crisis begins. Recognising the importance of drinking water and non-availability of substitutes at the global level, access to water has become a fundamental right of people. Water scarcity has the potential to stifle developmental efforts and water has always been a scarce commodity...
